Dear Families,

As a part of our integrated unit ‘Beneath Our Feet’, we will be having an incursion this term.

Throughout this unit, students’ understanding of soils, rocks and landscapes and how they change over time is developed through hands-on activities and student-planned investigations. Students also investigate factors that affect the erosion of soils.

Our incursion, ‘Geology Rocks’, will be a hands-on science workshop where students will investigate geological processes and landforms. They will learn about erosion, plate tectonics, landforms, soil classification, earthquakes, rock types and more.

This incursion will take place on Thursday 25th of June 2015.

The total cost for this incursion will be $10. The payment and permission note is due by Friday 12th June 2015.

Kind Regards,

Grade 4 Team

'Beneath Our Feet' Incursion

I give permission for my child .................................................................

Grade ...................... to attend the 'Geology Rocks' incursion.

I have enclosed $10.00 for the cost of the incursion.
